## Sapphire Scientific: Systems to Ensure Your Success

*Dual-function 2500HS Hard Surface Cleaning truckmount expands opportunities for cleaners.*

Hard surface cleaning is getting a lot of attention these days. In fact, it is one of the fastest-growing segments of the cleaning business. With square-foot billings often twice as much as carpet cleaning, it is easy to see why. For this reason, Sapphire developed the 2500HS, a dual-function truckmount built around the needs of both the carpet cleaner and the hard surface cleaner.

The team behind Sapphire Scientific products is comprised of experienced engineers, chemists, professional educational instructors and dedicated

customer support staff with a shared vision to research, design and create a new standard for performance and quality for carpet, rug, and hard surface cleaning systems.

In fact, Sapphire Scientific is a global leader of U.S.-manufactured truckmounts, chemicals and innovative tools for cleaning carpet, hard surfaces, upholstery and area rugs. The success of Sapphire – and its hard surface cleaning system – is built on a perfect synergy between equipment, accessories and chemical products.

The 2500HS is part of the hard surface cleaning system that Sapphire developed to address increased demand for these services. Equipped with Sapphire's patent-pending heat-capture system and a 2500 psi pump from General, the 2500HS delivers all the heat AND pressure you need to clean tile, grout, stone, concrete and more. Plus, the unit offers true versatility: use as a powerful carpet cleaning truckmount, or for restoration extraction and cleanup. The 2500HS gives carpet cleaners the edge over unheated units, delivering more vacuum, more solution pressure, a deeper clean, more satisfied customers and a stronger bottom line.

Sapphire Scientific's innovative heat exchanger redefines the cogeneration heat-capture process for truckmounts. Precision thermostatic controls provide constant, steady heat all day long. In addition, a patent-pending heat diverter system – used in all our slide-in units – makes Sapphire truckmounts the first truly "dumpsless" systems. While other manufacturers have set up their systems to use the fresh water tanks to keep the system cool, Sapphire engineers devised other methods to manage heat. Sapphire truckmounts do not dump unused fresh water to the waste tanks no matter how long the unit has been running. These features make Sapphire truckmounts significantly more compact and efficient while providing more heat control – allowing you to clean better, faster and more consistently.

The versatility and power of the 2500HS makes it ideal for the carpet cleaner wishing to expand into the lucrative hard surface cleaning business. For the best in cleaning equipment, chemicals, and training support, turn to Sapphire Scientific.

**2500HS Highlights**

- The 2500HS is the only machine on the market that delivers pressure AND heat – most competitors' machines cannot do both
- Premium Briggs & Stratton industrial engine – backed by a full two year commercial-use manufacturer's warranty.
- Maximum vacuum throughput – 2.5 in. diameter vacuum throughput machine minimizes airflow restriction.
- Strong, steady heat even in the most demanding applications. Triple-source heat well captures heat from the engine exhaust, engine coolant and from the blower.
- Longer-lasting belts: unique frame design channels cool air to the belts through the frame tubing, extending belt lifespan. Plus, Sapphire belts are made from long-lasting EPM compound – the same material used in automobile engine timing belts.
- Simplified maintenance. Reduced number of parts, including simplified wiring and shorter interior

hoses make for better access, performance and durability.

**2500HS Specifications**

- Power - 35 HP Briggs & Stratton gasoline engine
- Blower - Gardner Denver TriFlow Ti-406 tri-lobe blower producing vacuum to 16 in. Hg and flows up to 371 CFM
- Solution Pump - General HTS2016S producing up to 2500 PSI and 5.6 GPM at 1450 RPM
- Waste Tank - 90 gal. (340 l) TIG-welded 3/16 in. marine-grade aluminum. 75 gal. (283 l) at shutoff. OPTION: High Capacity Tank 120 gal. (454 l) / 100 gal. (379 l) at shutoff
- Frame Construction - 1/8 in. x 2 in. TIG welded aluminum box tubing
- Belt Cooling - 100 CFM through-frame mechanical air injection belt cooling
- Frame Finish - Powder-coated for maximum corrosion resistance
- Console Dimensions (W x H x D)

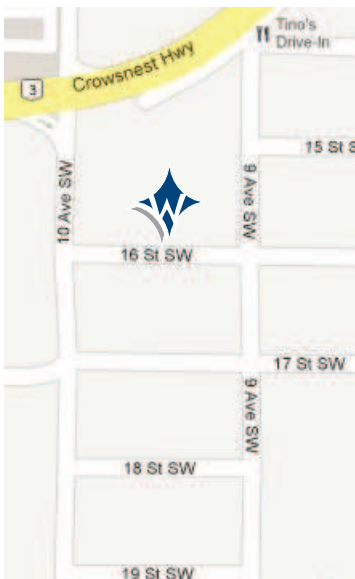

- 20 x 40 x 48 in. | 51 x 102 x 122 cm

Did you know...

Cleaning your windows on a cloudy day will help minimize frustrations and streaking?

This is mainly due to the fact that the windows dry quickly when the sun is blazing down on them. So wash away, on a cloudy day!

Feature Product

**POWERSHOT  
BED BUG KILLER**

“Must knows” about bed bugs:

A common myth about Bed Bugs is that they are typically associated with an un-clean environment. Not true. Even a 5 star resort is susceptible to getting a bed bug infestation. Bed bugs have no boundaries. They are natural born hitchhikers that love to travel home with you in your luggage, purses, jackets and even your shoes. A person that has picked up bed bugs when traveling can inadvertently transfer them and their eggs from room to room. Even, house to house.

A delay in bed bug prevention will give them more time to breed and multiply. The key to maintaining a bed bug free home or business is education and prevention.

- Water Based, VOC Compliant
- Fragrance Free, Non-Staining
- Non-Irritating to Humans and Animals
- 14 Day Residual Control
- Health Canada Registered #30285

# Garbage or Recycle?

Learn to  
**go green**  
with Wesclean

## Throw It Out!

\*does not include all possible garbage materials\*

### Recycle It!

#### Plastic (clean & dry)

e.g. household bottles and containers (shampoo, pop/water, milk, windshield washer, etc.), plastic bags (grocery, retail, bread, dry cleaning, etc.)

#### Paper/Cardboard

e.g. newsprint, computer paper, envelopes, egg cartons, paper bags, magazines, gift wrap, cardboard boxes, cereal boxes, paperback books

#### Metals (empty & clean)

e.g. cans (food, beverage, soup), aluminum cans and trays (pie plates), empty non-hazardous aerosol cans

#### Glass (empty & clean)

e.g. jars, bottles

#### Plastic

e.g. styrofoam, cellophane, food wrap, clear bakery containers, chip bags, bubble wrap, string, antifreeze containers, strapping, dishes/cutlery, toys, toothpaste tubes, garden hoses

#### Paper

e.g. disposable diapers, tissue paper, paper towel, frozen juice cans, powdered drink containers, pet food bags

#### Metal/Glass/Ceramics

e.g. foil wrap, clothes hangers, loose can lids, dishes, cups, ceramic or clay items, plate glass, mirrors

#### Food & Yard Waste

e.g. all food waste, grass, leaves, brush, garden waste

#### Other

e.g. Clothing, shoes, cassettes, cds, records, floor sweepings, sawdust, vacuum cleaner bags, pet feces/kitty litter, ashes

## Did you spot the Henrys hidden in this issue of Cleaning Up?

Tell us how many Henrys you  
counted by emailing us at  
[mail@wesclean.com](mailto:mail@wesclean.com)

by October 31, 2012 for a chance to win lots of  
great Henry-inspired prizes from NaceCare

\*This Henry should not be counted when participating in this contest.

**OUR MISSION:** To deliver in a timely and efficient manner superior cleaning products and excellence of service that meets and exceeds all our customer's requirements helping them perform their roles with efficiency and cost effectiveness. To treat employees and associates with fairness and respect and to be supportive to our suppliers in product and market development which will solidify our position as Western Canada's top distributor.
