

Regard Red Devil

Multipurpose Cleaner Degreaser

Red Devil was originally designed to provide an alternative to varsol to answer the need in the oil and gas industry for an environmentally friendly, personnel safe, non-flammable, non-toxic degreasing and cleaning agent that provides the robustness needed for industrial cleaning.

Red Devil offers a progressive, effective resolution to the problem of procuring an industrial strength degreasing and cleaning agent that is also environmentally sustainable.

There are a number of different industrial cleaning products on the market today, but the versatility and results of REGARD's Red Devil industrial solvents speak for themselves.

This solution can be filtered and reused in parts-washers or pressure washers to do jobs such as cleaning drilling rig floors, steel buildings and ground matting, as well as cleaning all types of heavy machinery.

Red Devil can be used in steam cleaners and pressure washers with either hot or cold water. The solution is highly effective when applied with a spray bottle and/or scrub brush.

Red Devil works great when removing oil, paint, blood, grease, heavy soil and deep set in stains from work clothes. Just add 1/2 cup of Red Devil to your laundry in the washing machine.

Designed to provide an alternative to varsol and an environmentally friendly, personnel safe, non-flammable, non-toxic degreasing and cleaning agent for industrial applications.

Benefits

- Cost Effective
- Environmentally Friendly
- Biodegradable
- Non-Toxic
- Non-Flammable
- Powerful Degreaser
- Amazing Versatility
- Reduced Labour

For Use On

- Oil Stains
- Paint Overspray
- Industrial Equipment
- Road Tar
- Adhesive Removal
- Aluminium
- Rubber
- Chrome & Stainless Steel
- Welding & Exhaust Soot
- Oxidization
- Carbon
- Silicon Removal
- Plexi-glass
- Clothing/Coverall Stains
- Cutting Fluid Overspray

Wesclean

Regard Red Devil

Multipurpose Cleaner

Degreaser

General Purpose Cleaner

- Dilute Red Devil with 30 parts water
- Spray surface
- Wipe off with clean cloth or towel

Red Devil works in steam cleaners and pressure washers with either hot or cold water.

Degrease Engines

- Dilute Red Devil 7:1 with water
- Spray on engine or engine parts
- Rinse with pressure hose or garden hose

Paint Oxidation and Overspray

- **Oxidation:** Work in sections. Completely coat the section in a 7:1 solution, not allowing the chemical to run into other sections. Then, buff in a circular motion with a clean, dry cloth. Red Devil will restore the paint to its natural lustre
- **Paint Overspray:** Apply Red Devil in a 7:1 solution to a dry cloth and rub the desired area. This will remove the paint overspray and will not damage the original paint
- Red Devil contains no silicone. Therefore at a 30:1 dilution Red Devil will do an effective job as a wax and grease remover
- Red Devil contains no solvent and will not have an adverse effect on fresh paint

Printing

- Red Devil may be used to replace blanket wash or other chemicals used to clean printing equipment
- Red Devil cleans and conditions rubber so it is effective in all cases and is safe for metal
- Red Devil can be applied in a spray form or applied directly with a cloth in a 10:1 solution
- Can be used on a painted machine to re-move inks with no adverse effect on the paint. Also ideal for removing ink from hands and clothes

De-Fogging Glass

- Apply Red Devil with a spray bottle at 120:1 solution
- Use a clean, dry cloth to buff glass completely (Some uses are windshields, eyeglasses, mirrors, scuba masks, ski goggles, display cases and plexi-glass)
- Red Devil also works as anti-static

Steam Cleaning

- Red Devil can be used in steam cleaners to do such jobs as paintwork, floors, engines and all types of heavy machinery

Solution	Pressure
50:1	100 p.s.i.
60:1	200 p.s.i.
70:1	300 p.s.i.
80:1 - 140:1	400 p.s.i.

Parts Washers

Blue Steel may be used in Parts Washers to remove carbon deposits from piston heads, epoxy glues, surface rust and heavy degreasing. Some examples are engines, spare parts, metals (finished and unfinished) and many other tough problems.

Boats and Recreational Vehicles

Red Devil is very effective in boat and recreational vehicle maintenance. Uses include: glycol removal from windows, oxidized aluminum, hard plastics, headliners, bilge cleaner, fiberglass, hull cleaner and stainless steel.
