News & Views on Our Industry

GOJO Introduces PURELL® Green Certified Hand Sanitizer

It's only natural... the brand people know and trust introduces PURELL® Green Certified Instant Hand Sanitizer, the first hand sanitizer to meet EcoLogo™ CCD-170*, the standard for environmental leadership and performance. PURELL® Green Certified Hand Sanitizer is part of a complete green certified hand hygiene portfolio from GOJO. With it, GOJO encourages healthy habits for people, supports green cleaning efforts and reduces environmental impact.

Optimized Formulas

The World's 1st Green Certified Hand Sanitizer Formula uses ethanol made from naturally renewable resources.*

Every day brings new choices that impact the well-being of people and the environment. One easy decision is PURELL® Green Certified Instant Hand Sanitizer. The ethanol used in PURELL® Green Certified is made from renewable resources that are replenished at a more rapid pace than consumption. Unlike

synthetic resources, renewable resources advance sustainability by leveraging nature's capital.

- Meets EcoLogo™ CCD-170, the standard for environmental leadership and performance
- Meets USDA Biopreferred program biobased content standards
- Made with 100% naturally renewable ethanol
- Fragrance free, dye free and readily biodegradable

PURELL® Green Certified is one choice you can make every day to promote the well-being of people and the environment.

*First to meet an independent, 3rd party, type-1 Ecolabel environmental standard for hand antiseptics.

Sustainable Packaging

PURELL® Green Certified refills feature new GOJO SMART FLEX™ technology.

Imagine the sustainability advantages of packaging that offers the robust characteristics of standard rigid HDPE bottles, while using 30% less material. That's the appeal of GOJO SMART FLEX technology. PURELL® Green Certified Instant Hand Sanitizer dispenser refills are the first to be offered with this new technology.

- Uses PET material - lightweight and recyclable
- Rugged performance - as durable as HDPE bottles
- Yields savings of over 250 tons of plastic each year

GOJO gave as much thought to the dispenser refills as they did to creating the world's first green certified hand sanitizer*. Both promote the well-being of people and the world around us. In addition to

sustainability and robust performance, SMART FLEX dispenser refills offer clarity for easy viewing of product level. As a result, you'll save time and labor as you do your part to save the environment and improve the world for those you care about.

Safe, Effective and Easy on the Environment

New PURELL® Green Certified performs as well as original PURELL®.

You can expect the same proven performance from new PURELL® Green Certified Instant Hand Sanitizer as you get from original PURELL®. PURELL® Green Certified kills 99.99% of most common germs that may cause illness while conditioning hands with a natural moisturizer.

The difference is that the new optimized green formula uses only naturally renewable ethanol, 70% to meet new emerging global standards, and is fragrance and dye free.

Wesclean Tip: Removing Driveway Oil Stains

One of the toughest cleaning and maintenance or restoration problems comes about when concrete is attacked by oil, grease and antifreeze from vehicles. Oil spots can be removed or lightened by spot treating them with a good degreaser or oil emulsifier. Follow these steps to remove your oil stain:

- 1) Scrape excess material from the surface of your concrete with a putty knife and wire brush.
- 2) Use a quality degreaser like Regard Red Devil to emulsify the oil. Spray the area liberally with product. Scrub the area with a coarse nylon-grit brush or dark synthetic pad and then hose the area down. This should remove your oil stain and leave your driveway looking good as new.

What Are The Benefits Of Using My E-Commerce Account?

- Order from our extensive online catalogue at anytime, day or night, 365 Days a year.
- Streamlined ordering process takes minutes.
- Create site specific order templates, for each "Ship To" location.
- Our system automatically provides confirmation of stock availability, and product pricing as well as shipping and tax charges if applicable.

Multilevel User Access

- Maintain tight administrative and cost control of the order process.
- Delegate the ordering function to a site supervisor with dollar value limits.
- If the value limit is exceeded in an order it will be redirected to a higher authority, such as an area supervisor for authorization.
- Restrict ordering to approved items only.

Instantaneous Reporting Features

- From the Reports Menu you can instantly generate reports designed to provide you with the information you need to make informed purchasing decisions.
- Download data in the format of your choice so that you can easily and automatically upload to your accounting software.
- Eliminate the time and expense associated with routine data input.
- Access secure on-line custom reports in the format of your choice — on request.

Ask your Wesclean Sales Representative for your username and password so that you can access your online account today!

Wesclean's Annual Charity Golf Tournaments 2010

We would like to thank all of our customers, suppliers and associates for making Wesclean's Annual Charity Golf Tournaments in Edmonton and Calgary a great success.

We are pleased to announce that over \$23,000 was raised for **Brown Bagging for Calgary's Kids Society** and **"Free2BME" Program within The Steadward Centre of Edmonton.**

Wesclean's Burnaby branch will be hosting a tournament September 8, 2010.

OUR MISSION: To deliver in a timely and efficient manner superior cleaning products and excellence of service that meets and exceeds all our customer's requirements helping them perform their roles with efficiency and cost effectiveness. To treat employees and associates with fairness and respect and to be supportive to our suppliers in product and market development which will solidify our position as Western Canada's top distributor.
